THE Tomorrow of a Farm

The past two or three years have furnished sufficient evidence of the danger of a TO-MORROW policy, especially as applied to the purchase of a farm. Did you profit when the wilderness of yesterday turned to the improved farm of today?

Here are some of the real bargains of today—perhaps tomorrow—we never know:

1,000 acres open land, \$25.00 per acre.

3,000 acres, good land, fairly open, \$12.50 per acre.

One-half section, well improved, in cultivation, 3 miles of Rubeatona, 18000 per acre.

100 acres, 4 miles of Rubeatona, open and black, \$40 per acre.

Other tracts—any size.

Every one worth investigating, every one worth the money and every one will pay a dividend.
